LADY BUG RELEASE!

A Free Event for Parents and Children

Saturday, May 18

12:30 - 3pm

Childrens games & activities

RAIN OR SHINE!

Ladybugs love to eat aphids, a harmful plant pest. They are cute. They are beautiful. We want to help populate New York City with them.

WATCH OUT, APHIDS!

Join us when we release a whole bunch of them into the garden. And wish them well. Crickets and praying mantis could be next.

Entrance to the garden at Rivington Street between Chrystie and Forsyth
